

## (f) The Montana CCI Code Edits Listing

### **Correct Coding Initiative (CCI) edits**

Correct Coding Initiative (CCI) edits are pairs of Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) Level II codes that are not separately payable except under certain circumstances. The edits are applied to services billed by the same provider for the same beneficiary on the same date of service.

All claims are processed against the CCI tables.

### **The Column 1/Column 2 correct coding edit table**

The Column 1/Column 2 correct coding edit table contains two types of code pair edits. One type contains a column 2 (component) code which is an integral part of the column 1 (comprehensive) code.

### **The Mutually Exclusive Code Pair Edit File**

The other type, the Mutually Exclusive Code, contains code pairs that should not be reported together where one code is assigned as the column 1 code and the other code is assigned as the column 2 code. If two codes of a code pair edit are billed by the same provider for the same beneficiary for the same date of service without an appropriate modifier, the column 1 code is paid. If clinical circumstances justify appending a CCI-associated modifier to the column 2 code of a code pair edit, payment of both codes may be allowed.

These edits remain unchanged until the next revision of this fee schedule section referenced in the Administrative Rules of Montana.

In utilizing these correct code files, remember to first test a code using one CPT code first, and then reversing the order of the CPT codes the second time around. The mutually exclusive code pair file contains code pairs that should not be reported together where one code is assigned as the column 1 code and the other code is assigned as the column 2 code.

**All of the Mutually Exclusive Edits are included in the table below.**

## Mutually Exclusive Edits
